Faculty of Public Health

2022

ANNIVERSARY

Faculty of Public Health

Thammasat University

MESSAGE FROM THE RECTOR

**Assoc. Prof. Gesinee
Witoonchart**

Rector of Thammasat University

On the 18th anniversary of the Faculty of Public Health's establishment, the Thammasat community would like to admire the strong determination for development of the Faculty of Public Health to become a leading institution in giving importance to producing graduates in every program with knowledge, morals, and a commitment to serve the community, improving people's health, and continuously creating a supportive environment for the well-being of the Thammasat society.

The previous year, the Faculty of Public Health completed the Education Criteria for Performance Excellence (EdPEx200), the same as other faculties in Thammasat that have been certified, and is also committed to developing towards excellence for EdPEx300 in the future.

In addition to outstanding performances in terms of teaching and learning management, organization development, and the provision of public benefit activities, the faculty also focuses on the expansion

of learning research and practice and academic services for society, as well as cultural conservation, as demonstrated by the faculty and student research works that have received awards for presenting health promotion innovations at the national level. Publications in academic journals, both at the international level and including continuous integration with the community, led the Faculty of Public Health to become an acceptable accomplishment for the people.

I and the Thammasat community would like to express our appreciation for the dean's administration, the management team, faculty members, academic support personnel, students, and alumni of the Faculty of Public Health for being the important consequence of mobilizing all of the faculty's missions to achieve the policies and goals of the university.

A handwritten signature in blue ink, which appears to read 'in witoonchart'.

(Assoc. Prof. Gesinee Witoonchart)
Rector of Thammasat University

MESSAGE FROM THE DEAN

**Assoc. Prof. Dr. Sasitorn
Taptagaporn**

**Faculty of Public Health,
Thammasat University**

Throughout the 18 years since the establishment of the Faculty of Public Health at Thammasat University, leading up to its 19th year, the faculty has faced strategic challenges in many areas. Specifically, the adaptation of learning management to serve the new generation.

The faculty is committed to adapting and being flexible in all aspects of operating in accordance with policies and missions compliant with the university's strategic plan in order to continuously produce graduates with GREATS attributes, conduct research and innovation that leads to social development changes, promote cooperative networks among both national and international parties, enhance academic and health services for people, hold on with sustainable and transparent management, and participate in the community of public health sciences and the Association of Public Health Sciences at Thammasat University.

One concrete accomplishment proving our determination is that the faculty has received the Education Criteria for Performance Excellence (EdPEx200)

and is still committed to developing towards EdPEx300 in the future. The faculty continued to provide integrations of multiple disciplines through a learning process that encouraged students, staff, and service recipients to criticize, analyze, and research by themselves in creative activities, research, and innovation as a result of faculty researchers and students who have won both national and international awards, as well as GREATS attributes that lead students into quality graduates with resilience in a cutting-edge era.

Finally, I would like to express my sincere thanks to the university, the management team, faculty members, academic support personnel, students, and alumni of the Faculty of Public Health for mobilizing and reinforcing the operation in all missions to achieve the goals, together with moving forward to entering the 90th anniversary with outstanding performances.

A handwritten signature in blue ink, consisting of stylized cursive letters.

(Assoc. Prof. Dr. Sasitorn Taptagaporn)
Dean of Faculty of Public Health

During February 1 – May 30, 2023, and on May 30, 2023, the Faculty of Public Health, Lampang Campus, organized the integrated workshop in Community Health for fourth-year students and organized activities for the presentation on the results of training at the Mueang District Public Health Office, Lamphun Province, for a period of 4 months (1 Feb.–30 May 2023).

On June 9, 2023, third-year students in the Community Health Program presented the result of the public health problem-solving projects in the Nong Lom Subdistrict, Hang Chat District, Lampang Province, between May 27 and June 8, 2023, which is a continuation of the interdisciplinary public health practice training.

On June 12, 2023, the Community Health Program organized a health education program about electronic cigarettes aimed at enhancing understanding and awareness of the dangers of e-cigarettes among middle school students. Within the activity, there are four learning activities: Activity 1: knowledge of e-cigarette control laws; Activity 2: knowledge about chemicals in e-cigarettes Activity 3: Knowledge about the effects of e-cigarettes Activity 4: Rejection skills at Mae Moh Wittaya School, Mae Moh Subdistrict, Mae Moh District, Lampang Province

8. Study Visit Activities

Rangsit campus

• Bachelor of Science in Occupational Health and Safety

On December 14 – 15, 2022, the Occupational Health and Safety Program organized a workshop on “Basic Fire Fighting” at Bang Rachan Station Fire and Mitigation Training Center, Bang Rachan District, Sing Buri Province, aimed at enhancing knowledge and understanding of basic firefighting, including developing skills in basic firefighting training through actual practice.

On November 8, 2022, the Occupational Health and Safety Program organized a study visit to the production process at Wan Thai Food Industry Co., Ltd. Students had the opportunity to learn about work safety management, such as safety when working with machinery, electricity, chemicals, construction work, etc.

On December 16, 2022, the Occupational Health and Safety Program organized professional skills training in occupational health and safety entitled “Working in Confined Spaces and the LOTO System” in the Occupational Health and Safety Training Center, Association for the Promotion of Safety and Health at Work (Thailand).

• Bachelor of Science in Environmental Health

On September 7, 2022, the Environmental Health Program organized the 7th Marine Science Conference at the Berkeley Hotel, Pratunam, Bangkok.

On March 21, 2023, the Environmental Health Program organized a study visit at the On Nut solid waste transfer station.

On March 27, 2023, the Environmental Health Program organized a study visit at Bangkadi Industrial Park Co., Ltd.

On April 24, 2023, the Environmental Health Program organized a study visit to the Metropolitan Waterworks Authority.

On April 24, 2023, the Environmental Health Program organized a study visit at Wan Thai Food Industry Company Limited.

• Bachelor of Science in Innovative Health Promotion

On April 20, 2023, the Innovative Health Promotion Program organized a study visit to the Office of the Health Promotion Foundation (Thai Health Promotion Foundation). The topic was Innovation Creates Happiness, and the happiness exhibition was from 1:00 p.m. to 4:00 p.m. for third-year students.

On May 12, 2023, the Innovative Health Promotion Program organized a study visit at the ThaiHealth Learning Centre (ThaiHealth Academy) on the topic of health counseling from 1:00 p.m. to 4:00 p.m. for third-year students.

Lampang campus

• Bachelor of Science in Environmental Health

On November 23, 2022, the Environmental Health Program organized a study visit at the air quality monitoring station at Lampang Airport, which is part of the course EN383: Air Pollution Management and Control.

On October 31, 2022, the Environmental Health Program organized a study visit to the Health Center for Ethnic, Marginalized, and Migrant Workers, which is part of the course EN361: Solid Waste and Excreta Management.

On November 24, 2022, the Environmental Health Program organized a study visit to Mae Moh Power Plant, which is part of the course PB286: Air Pollution Control Technology.

On April 28, 2023, the Environmental Health Program organized a study visit to the Water Management Center, Kiew Lom Dam, which is part of the course EN363 Water Supply for Community and Industry.

On November 8, 2022, the Environmental Health Program organized a study visit at CPRAM Co., Ltd. as part of the EN461 Food Sanitation and Food Safety course.

On April 27, 2023, the Environmental Health Program organized an off-site study visit at the Lampang Municipality Waste Disposal Center, which is part of the course EN361: Solid Waste and Excreta Management.

• Bachelor of Science in Occupational Health and Safety

On January 25, 2023, the Occupational Health and Safety Program organized a study visit to Bhumibol Dam, Tak Province, which was part of the course OC482 Occupational Health and Safety Management.

On April 24, 2023, the Occupational Health and Safety Program organized a study visit at Lampang Hospital, which is part of the course OC311: Occupational Medicine.

• Bachelor of Science in Community Health

On August 29, 2023 The Community Health Program organized a study visit at Sala Dong Lan Subdistrict Health Promoting Hospital, Ko Kha District, Lampang Province.

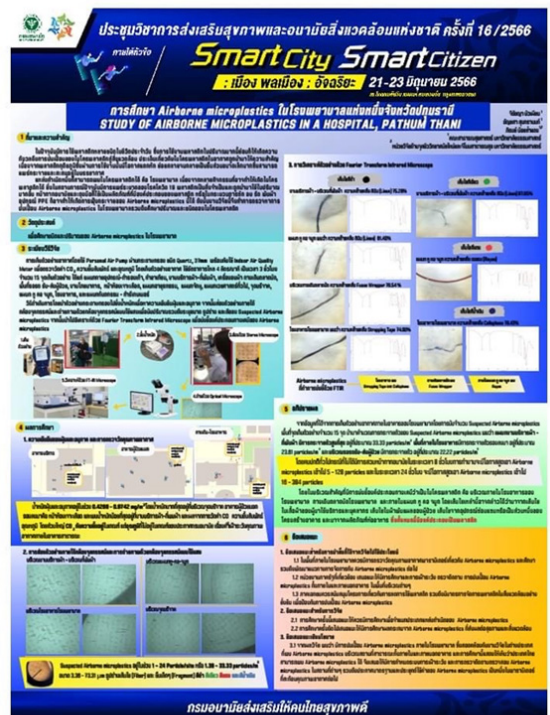

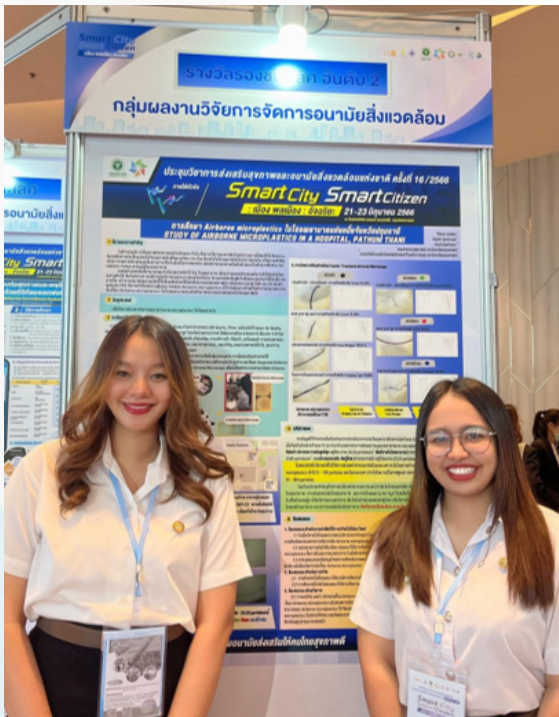

On May 3, 2023, the Community Health Program organized a study visit at Makhuea Chae Sub District Health Promoting Hospital, Mueang District, Lamphun Province.

9. Outstanding Student Contribution Awards

Rangsit campus

Ms. Jiratchaya Buapian and Ms. Anchasa Suntharanon, fourth-year students in the Environmental Health Program, received the 2nd runner-up award for presenting research results on “Study of Airborne Microplastics in a Hospital, Pathum Thani” under the mentorship of Asst. Prof. Dr. Pirom Noisamdaeng, which is part of the course EN491 Special Projects in Environmental Health at the 16th National Health Promotion and Environmental Health Conference, Smart Cities Smart Citizen, at the Asawin Grand Convention Hotel, Bangkok.

Student Affairs

The Faculty of Public Health has implemented student affairs works by organizing activities to develop student potential according to faculty, strategies, and university policies, along with improving the quality of life of students, so that students can develop in every aspect, including having a good quality of life and being ready to learn new things. Even though the outbreak of Coronavirus Disease-2019 (COVID-19) has subsided, there are still students periodically infected with COVID-19. Therefore, the student care process has been adjusted to provide assistance and care for students systematically as a result of students returning to study in an onsite format at the university and also planning student development activities to suit the situation of the outbreak of coronavirus disease 2019 (COVID-19). Important operational results are as follows:

1. Developments of students' quality of life (Rangsit and Lampang campus)

1. Implementation of health prevention and response due to operational guidance for students expected to be at risk or infected with COVID-19.

2. Providing notebooks and iPads to students with difficulty was supported by corporate communication.

2. Student Development Activities (Rangsit and Lampang campus)

1. Students Orientation for the Academic Year 2022.

ปฐมนิเทศศึกษาระดับปริญญาตรี ภายใต้แนวคิด “Ready to Fly : ติดปีกทางปัญญา (ฟ้าจะบิน)”

ปฐมนิเทศในแต่ละสาขาวิชาชีพ

2. Cross-cultural Outings with Exchange Students from Maastricht University for the Academic Year 2022.

ท่องเที่ยวเชิงวัฒนธรรม และเรียนรู้งานด้านสาธารณสุข ณ จังหวัดลำปาง

เรียนรู้ด้านการเกษตร และภูมิปัญญา ณ พิพิธภัณฑ์การเกษตรเฉลิมพระเกียรติฯ จังหวัดปทุมธานี

“เลี้ยงจ้ลารับ certificate”

Student Development Activities (Rangsit campus)

1. Seminars on Student Activities in Academic Year 2022.

จัดทำแผนงานกิจกรรมนักศึกษา ศูนย์รังสิต และแลกเปลี่ยนเรียนรู้ วางแผนการทำงานร่วมกัน

2. Pre-program in the Academic Year 2022.

Pre-Program “เสริมพื้นฐานทางวิทยาศาสตร์ และคณิตศาสตร์”

Pre-Program “Soft Skill ชีวิตดีที่มร.”

3. Meetings with Advisors in the Academic Year 2022.

อาจารย์ที่ปรึกษาให้คำปรึกษาด้านการเรียน การใช้ชีวิต และเรื่อง อื่น ๆ

4. Welcome Activities in the Academic Year 2022.

นักศึกษาได้ทำความรู้จักกัน และสร้างความสัมพันธ์ที่ดีระหว่างเพื่อนใหม่และรุ่นพี่

5. Wai Kru Ceremony in the Academic Year 2022.

6. TU Freshy Games 2022.

สร้างความสัมพันธ์ พัฒนากระบวนการทำงานร่วมกันทั้งภายในและภายนอกคณะฯ ของนักศึกษาชั้นปีที่ 1

7. The 11th Sa Suk Camp.

แนวทางการเรียนการสอนและแนวทางประกอบอาชีพให้กับนักเรียนชั้น ม. ปลาย รวมทั้งนักศึกษาที่เข้าร่วมกิจกรรม

8. The 7th Sasuk Volunteers for Rural Development “Luk Dome Volunteers, Nam Phong Developments”.

นักศึกษาทำกิจกรรมบำเพ็ญประโยชน์ และนำความรู้ทางด้านสาธารณสุขไปแก้ไขปัญหาก็เกี่ยวข้องกับสุขภาพของคนในชุมชน รวมทั้งได้เรียนรู้วัฒนธรรม และภูมิปัญญาท้องถิ่น

9. Post Training and Preparations for Career Paths in the Academic Year 2022.

พิธีปัจฉิมนิเทศ

เสวนาเส้นทางสายอาชีพ โดย ศิษย์เก่าคณะสาธารณสุขศาสตร์

Student Development Activities (Lampang campus)

1. Orientations in the Academic Year 2022.

เตรียมความพร้อมในการเรียน และพบอาจารย์ที่ปรึกษา

2. Wai Kru Ceremony in the Academic Year 2022.

จัดพิธีไหว้ครู และมอบเสื้อปฏิบัติการณ์ให้กับนักศึกษาชั้นปีที่ 3 ที่พร้อมก้าวสู่การเรียนรู้ทางด้านวิชาชีพ

3. Welcome Activities in the Academic Year 2022.

สร้างความสัมพันธ์ระหว่างเพื่อนใหม่ รุ่นพี่ และคณะฯ

4. Merit-Making and Meetings with Advisors in the Academic Year 2022.

เตรียมความพร้อมในการเรียนรูปแบบ onsite และร่วมอนุรักษ์วัฒนธรรม ประเพณี

5. Post Training and Preparations for Career Paths in the Academic Year 2022.

เตรียมความพร้อมก่อนการทำงาน และเสริมสร้างความรักความผูกพันในครอบครัวสาธารณสุขแห่งธรรม

6.Freshy Game “Dome Kaew” in the Academic Year 2022.

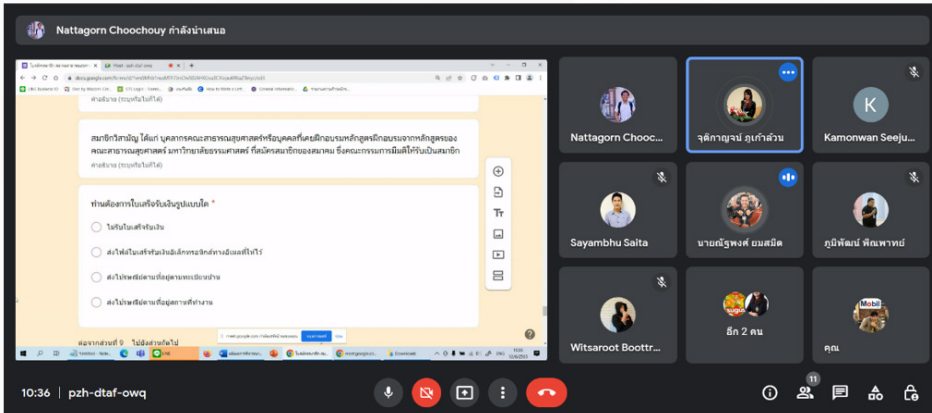

7. The Sasuk Volunteers for Rural Developments.

ณ อบต.แม่สัน อำเภอกำแพงแสน จังหวัดลำปาง

3. Implementing a Corporate Alumni Network

The meeting of the Public Health Alumni Association at Thammasat University aimed to develop collaboration between the Faculty of Public Health, alumni, and current students.

Introducing and publicizing the recruitment of alumni association members by the President of the Public Health Alumni Association, Thammasat University.

Alumni attended the “Final Orientation” activity, and the “Career Path” discussion aims to provide advice on preparing to work in professional fields, building morale, and expressing congratulations on the occasion of graduating.

Alumni participated in a discussion on the topic “career path” in the 11th (Sa)Suk Camp to provide guidance on careers in the working field.

Master of Public Health in Global Health (International Program) Oral Presentation on the topic entitle “Proof of Concept off Method for Evaluating Capacity Building for Health Literacy Responsive Practice” in the 13th International Graduate Students Conference on Population and Public Health Sciences (IGSCPP) July 8, 2022

4. Sakriya Shrestha

Master of Public Health in Global Health (International Program) Poster Presentation on the topic entitle “Factor affecting the utilization of institutional health services by Chepang women in Chitwan district of Nepal” in the 12th International Conference on Public Health among GMS Countries 2022 held 2-3 September 2022 Thailand

5. Supportive Scholarships

Grants for International Research and Education (Full scholarships)

1. Master of Science in Occupational and Environmental Health (International program) 4 scholarships
2. Master of Public Health in Global Health (International program) 4 scholarships

Thammasat University Research and Creativity Grants, in the Fiscal Year 2023 (Publication in Graduate Research)

1. Master of Public Health in Global Health (International program) 1 scholarship

Dissertation Grants for Master of Science in Health Management, Safety and Environmental Health (M.S.)

Master of Science in Health Management, Safety and Environmental Health (M.S.) 1 scholarship

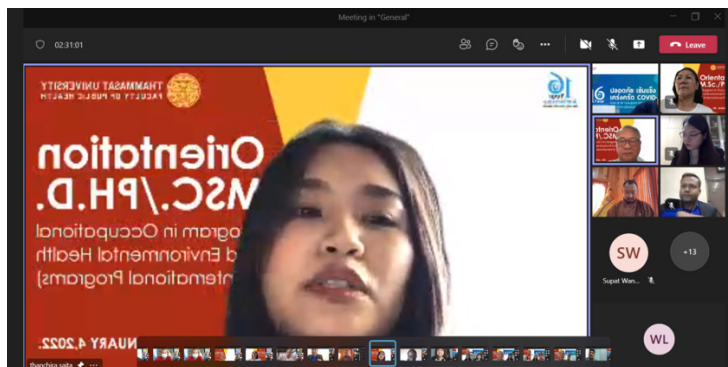

6. Teaching Arrangements

Master of Science/Doctor of Philosophy in Occupational and Environmental Health (International program)

On August 18, 2022, the Occupational and Environmental Health program organized an orientation for new students aimed at learning more about the faculty and preparation courses.

The Occupational and Environmental Health program organized the pre-program for new students in the academic year 2022, aimed at promoting the principles and basic knowledge about occupational and environmental health.

The Occupational and Environmental Health program organized a presentation of the progress of thesis work in the academic year 2022.

Faculty of Public Health and the Doctor of Philosophy program

Study Visits in the Academic Year 2022

On October 27, 2022, Occupational and Environmental Health students had a study visit at the Automotive Emission Laboratory (AEL) in the Pollution Control Department, Ministry of Natural Resources and Environment, Bangkok, Thailand, provided by OE632 Occupational and Environmental Sampling and Analysis.

On October 28, 2022, Occupational and Environmental Health students had a study visit at the Center of Scientific Equipment for Advanced Research, Thammasat University, Thailand, provided by OE 632 Occupational and Environmental Sampling and Analysis.

On November 8, 2022, Occupational and Environmental Health students had a study visit at the Waste Disposal Center, Nonthaburi Provincial Administrative Organization, Thailand, provided by OE653 Waste Management.

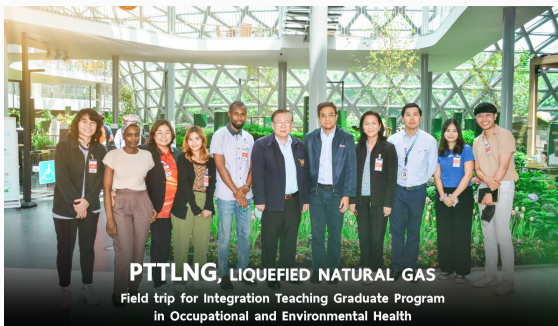

On November 15, 2022, Occupational and Environmental Health students had a study visit at the Industrial Waste Management Center, Better World Green Public Company Limited, Saraburi Province, Thailand, provided by OE653 Waste Management.

On June 8 – 9, 2023, Occupational and Environmental Health students had a field trip at the MapTaPhut Industrial Estate, Rayong Province, Thailand. Our faculty members as well as OEH students gained invaluable learning experiences in environmental work at the Environmental Monitoring and Control Center (EMCC).

On June 8 – 9, 2023, Occupational and Environmental Health students had a field trip at the Flora Exhibition Hall, a floral garden energized by liquefied natural gas, in Rayong Province, Thailand. Our faculty members as well as OEH students gained invaluable learning experiences in the LNG recycling process, from the temperature of -160°C until it became liquid.

On June 8 – 9, 2023, Occupational and Environmental Health students had a field trip at the Map Ta Phut Industrial Port, the international modern industrial area that is located in the Maptaphut District of Rayong Province and also the Laem Chabang District of Chonburi Province, Thailand. Our faculty members as well as OEH students gained invaluable learning experiences in missions and roles about responding to customers' requirements, port safety management, environmental management, public health management, and being an eco-industrial city.

On June 8 – 9, 2023, Occupational and Environmental Health students had a field trip at the NPC Safety and Environmental Service Co., Ltd., Tambon Map Ta Phut Amphur Muang Rayong, Rayong, Thailand. Our faculty members as well as OEH students gained invaluable learning experiences in emergency response centers, fire engineering design, and training in quality, environment, occupational health, and safety.

On June 8 – 9, 2023, Occupational and Environmental Health students had a field trip at the Rayong Hospital (Koh Wai branch), Rayong, Thailand. Our faculty members as well as OEH students gained invaluable learning experiences in the Occupational Medicine and Family Medicine Academic Center.

On April 15 – 29, 2023, as part of GH618, a course of the Master of Public Health (Global Health) Program, our MPH-GH students in AY 2022 attended the Compulsory Learning Symposium within the Masters of Global Health, held at Manipal Academy of Higher Education, Madhav Nagar, Manipal 576 104, Karnataka, India.

Research and Creativity Grants, in the Fiscal Year 2023 (Graduate Research)

CONGRATULATIONS
to our PhD-OEH student

on acquiring the publication award for her research paper titled

"Spatial distribution and health risk assessment of As and Pb contamination in the groundwater of Rayong Province Thailand"

Her work has been recognized in Category 1: Research articles published in international academic journals prioritized by Scientific Journal Ranking (SCImago Journal Rank) TOP 10 %

Authored by: Aj. Wiyada Nilkarnjanakul

Environmental Research
Volume 204, Part A, March 2022
Article number 111838

CONGRATULATIONS
to our PhD-OEH student

on the acceptance of her research paper titled

"Urinary arsenic and health risk of the residents association in contaminated-groundwater area of the urbanized coastal aquifer, Thailand."

Her work has been recognized in Category 1: International academic journals listed in the international Scopus database, classified as Ranking of SJR journals (SCImago Journal Rank), within the top 10% of the branch, and in the 1st quartile (Q1).

Authored by: Aj. Wiyada Nilkarnjanakul

Chemosphere
Volume 313 February 2023
Article number 137313

CONGRATULATIONS to our PhD-OEH student

on acquiring the publication
award for her research
paper titled

"Ergonomics Risk Assessment Tool Development for Repetitive Task (RTRA)"

Her work has been recognized in Category 3:
Research articles published in international
academic journals prioritized by Scientific
Journal Ranking (SCImago Journal Rank)
Quartile 2 (Q2)

Authored by: Ms. Metta Ruennusan

Work Journal
Accepted 7 April 2022

CONGRATULATIONS to our PhD-OEH student

on acquiring the publication
award for her research
paper titled

"Ergonomic Task Analysis for Prioritization of Work-Related Musculoskeletal Disorders among Mango-Harvesting Farmers"

Her work has been recognized in Category 4:
Research articles published in international
academic journals prioritized by Scientific
Journal Ranking (SCImago Journal Rank)
Quartile 3 (Q3)

Authored by: Ms. Phonnipha Boriboonsuksri

Safety
Volume 8, Issue 1, March 2022
Article number 6

CONGRATULATIONS to our PhD-OEH student

on acquiring the publication
award for her research
paper titled

"Biomass burning emission inventory of multi-year Pm_{10} and $\text{Pm}_{2.5}$ with high temporal and spatial resolution for Northern Thailand"

Her work has been recognized in Category 3:
Research articles published in international
academic journals prioritized by Scientific
Journal Ranking (SCImago Journal Rank)
Quartile 2 (Q2)

Authored by: Ms. Anuttara Hongthong

ScienceAsia
Volume 48, Issue 3, Pages 302-309
June 2022

CONGRATULATIONS to our PhD-OEH student

on the acceptance of
Thammasat University
Doctoral Student Scholarship
Academic Year 2022
for his research paper titled

"Health risk assessment of Emamectin benzoate insecticides exposure in farmer: A case study of agricultural area, Nikompattana Sub-district, Bang-rakam District, Phitsanulok province, Thailand"

Authored by: Mr. Theerayut Baubhom

CONGRATULATIONS to our MPH-GH alumnus

on receiving **Thammasat University
Research Grants and Awards 2021
(graduate students)**

His thesis research, titled
"Effects of Pregnancy:
a Systematic Review of the
Health Impacts of Adolescent
Pregnancy in West Africa,"
has been recognized and
awarded in the category
of the best thesis at an
excellent level

Authored by: Mr. Augustine Lambomung

Master of Science in Health Management, Safety and Environmental Health (M.S.)

On August 6, 2022, the Master of Science Program (Thai programs) organized an orientation activity for new graduate students in Academic Year 2022, led by Assoc. Prof. Dr. Sasitorn Taptagaporn, Dean, along with administrators, faculty, and staff, aimed at learning and preparing for studying. Introduction to teaching curriculum and activities to exchange knowledge, ways of living, and relationships between generations at the Piyachat Building and the Integrated Learning and Practice Building, Thammasat University, Rangsit Center

On August 6, 2022, the Master of Science Program (Thai programs) organized a learning exchange activity about how to complete the study period and guidelines for writing a thesis by Dr.Kitrawee Jiraratsatit and alumni of the Master’s Degree, Faculty of Public Health, at Lecture Room 530, 5th Floor, Piyachart Building, Thammasat University, Rangsit Center.

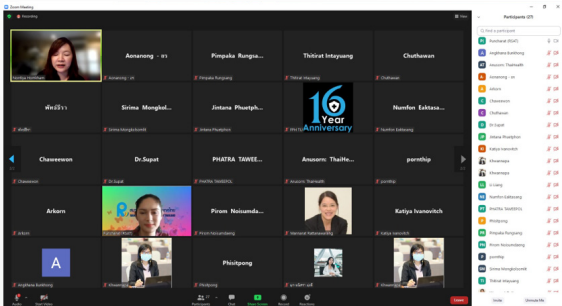

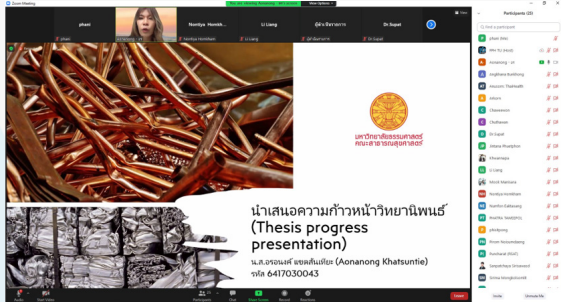

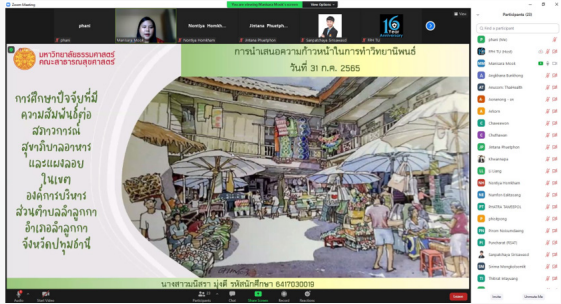

On August 6, 2022, the Master of Science Program (Thai programs) organized a TU campus tour in order to explore landmarks at Thammasat University, Rangsit Campus, including the hall of Phra Phuttha Thamma Thithi Satsada, the TU Sport Stadium, the transportation station, and the Dome Administrative Building.

Pre-program for the Master of Science Program (Thai Programs) in the Academic Year 2022

Progress Presentation of Thesis in the Academic Year 2022

Study Visits in Academic Year 2022

On June 30, 2023, the Master of Science in Health Management, Safety, and Environmental Health (M.S.) was led by Asst. Prof. Dr. Kaysorn Sumpowthong, and master's students had a study visit Chiang Rai Province and exchanged knowledge with the Lifelong Elderly Development Center, Ban Du Subdistrict, and The University of Third Age, Chiang Rai Province, provided by course PB685: Interdisciplinary Studies for the Development of the Elderly Population on Culture, local wisdom, and driving policy is the heart of the development of the elderly population.

Seminar Courses & Discussions

On December 14, 2022, the Master of Science in Health Management, Safety, and Environmental Health (M.S.) organized a seminar entitled “Creating Learning Outcomes at the Curriculum Level into Subjects (Designing PLO towards CLO)” lectured by Assoc. Prof. Dr. Tavid Kamolvej, Deputy Governor of Bangkok, on the topic “Direction and Policy of Bangkok with the Need for Public Health Personnel.” The objective of the seminar is to enhance knowledge by understanding the design of learning outcomes at the course level and also designing learning outcomes at the course level that are consistent with learning outcomes at the curriculum level with quality at Room 530, Piyachat Building, Thammasat University.

Extra-curricular Activities

Thesis Writing Activities

The Master of Science in Health Management, Safety, and Environmental Health (M.S.) organized learning activities on thesis writing for students in the 2022 academic session, organized by the Curriculum Committee at Room 530, 5th floor, Piyachat Building, Faculty of Public Health, Thammasat University, Rangsit Center. The activities have three sessions: 1st session: thesis guidelines, 2nd session: concept paper presentation, and 3rd session: presentation of thesis outline. The purpose of this activity is to promote knowledge, understanding the process of preparing a thesis and conducting independent research, including following up on the operation of the thesis report in order to do effective theses and independent study, and plan to complete the thesis and independent research within the study period.

Graduation Ceremony (Academic year 2019-2020)

On May 20, 2022, Thammasat University held a royal graduation ceremony for graduates in the academic year 2019 - 2020 (Master of Science, Doctor of Philosophy) of the Faculty of Public Health at Thammasat University, both Rangsit Center and Lampang Center. The graduation ceremony was held on May 29 – 30, 2022, at the main auditorium of Thammasat University, Tha Phrachan campus.

Master of Science in Occupational Health and Safety (M.S.)

Student Orientations in the Academic Year 2022

On August 6, 2022, Faculty of Public Health, Thammasat University organized the Student Orientation in Academic Year 2022 for Master of Science in Occupational Health and Safety (M.S.) from 8:30 a.m. - 4:00 p.m. at Room 530, 5th Floor, Piyachart Building.

Environmental Measurement Trainings

The Master of Science in Occupational Health and Safety (M.S.) organized activities to enhance skills for students to apply academic knowledge to actual practice. The students practiced measuring the working environment at Modern Frame Company Limited and Merry Corporation Company Limited.

Development Dissertation Topics

The Master of Science in Occupational Health and Safety (M.S.) organizes activities to develop thesis topics. To support students in successfully completing their studies according to the study plan of the curriculum, such activities include an exchange and discussion of various problems and obstacles among students, as well as giving opinions and providing suggestions to help students complete their theses.

Seminars on the Curriculum Development

The Executive Committee of the Master of Science in Occupational Health and Safety (M.S.) program organized seminar activities for the program for exchanging views and ideas in developing course content, developing teaching methods, and planning curriculum development and guidelines for student development.

Panel Discussions on “Innovative Technologies for Occupational Health and Safety”

On December 11, 2022, the Master of Science in Occupational Health and Safety (M.S.) organized a panel discussion on “Innovative Technologies for Occupational Health and Safety” lecture by Asst. Prof. Dr. Chanwit Bunchuay to enhance knowledge and understanding of innovation and technology for students. To apply the knowledge gained in preparing a thesis or independent research to work in student workplaces at room 530, 5th floor, Piyachart Building, Thammasat University.

Meetings with Advisors

The Master of Science in Occupational Health and Safety (M.S.) organizes meetings with academic advisors in order to improve good relationships between professors and students and listen to various stories related to teaching student life.

Master of Public Health in Public Health and Sustainability (Lampang campus)

On August 6 – 7, 2022, the Master of Public Health in Public Health and Sustainability (Lampang campus) organized student orientation activities and preparation workshops (pre-program) for new students in the academic year 2022 aimed at promoting knowledge and understanding of the concept of sustainable development that is integrated with public health work to students from 9:00 a.m. to 4:00 p.m. at TU Lampang Center and through the online system.

On September 24 – 25, 2022, the Master of Public Health in Public Health and Sustainability (Lampang campus) organized an academic seminar on proposing thesis topics for graduate students in the academic year 2022 from 9:00 a.m.– 4:00 p.m. at TU, Lampang campus.

On August 5 – 6, 2023, the Master of Public Health in Public Health and Sustainability (Lampang campus) organized a workshop on “Statistical Data Analysis Using Stata Program” for graduate students from 9:00 a.m.– 4:00 p.m. at TU Lampang campus.

On October 8, 2022, the Master of Public Health in Public Health and Sustainability (Lampang campus) organized a seminar on thesis topics for graduate students in the academic year 2022, time 09.00 – 16.00 at TU, Lampang campus.

On March 25, 2023, the Master of Public Health in Public Health and Sustainability (Lampang campus) organized a seminar on thesis topics for graduate students in the academic year 2022 from 9:00 a.m. to 4:00 p.m. at TU, Lampang campus.

Researches and Academic Services

Research, Faculty of Public Health, Thammasat University

The Faculty of Public Health at Thammasat University has an important research mission, which is to produce research results and create public health knowledge accepted at the national and international level. The research and innovation products are of international standard quality that can be put to sustainable use, and are able to integrate public health work into conducting research both in terms of health promotion, environmental health, occupational health and safety, and global health. The expectation is that the research results will be able to help solve health, social, and environmental problems and have benefits at the national and international level. The Faculty of Public Health has various important processes in operation to develop research and continuously develop the potential of faculty and personnel within the faculty to lead to being a health leadership organization. Therefore, the Faculty of Public Health Research Fund was established to support the budget for the production of research and innovation and encourage faculty and personnel within the faculty to conduct research continuously. There is a project to develop the potential of personnel to be ready to carry out research and produce innovative work for excellence in research. There is a process for cultivating young researchers by inviting experts or senior researchers to take part in research as well as finding sources of capital both inside and outside the country, which makes it possible to produce research results, innovate, and publish research results and academic articles in various journals in a database that is recognized nationally and internationally.

The Faculty of Public Health at Thammasat University also provided research that came from the expertise of diverse faculty members who work in integrated research across the sciences, which is the main competency of the Faculty of Public Health. This resulted in the research unit in modern microbiology and public health genomes at Thammasat University and the Occupational Ergonomics Research Unit at Thammasat University, as seen concretely.

1. Researches in the Fiscal Year 2021

Including 26 projects and budget 16,635,720 Baht

Types of Projects	Number (Project)	Total
Research projects supported by the Faculty of Public Health Research Fund.	1	150,000
Research projects supported by Thammasat University Research Grants.	6	1,500,000
Research projects supported by external funding sources.	14	32,916,144
Research projects supported by international funding sources.	2	464,889.48
Non-funded research projects. (In kind)	3	2,253,600

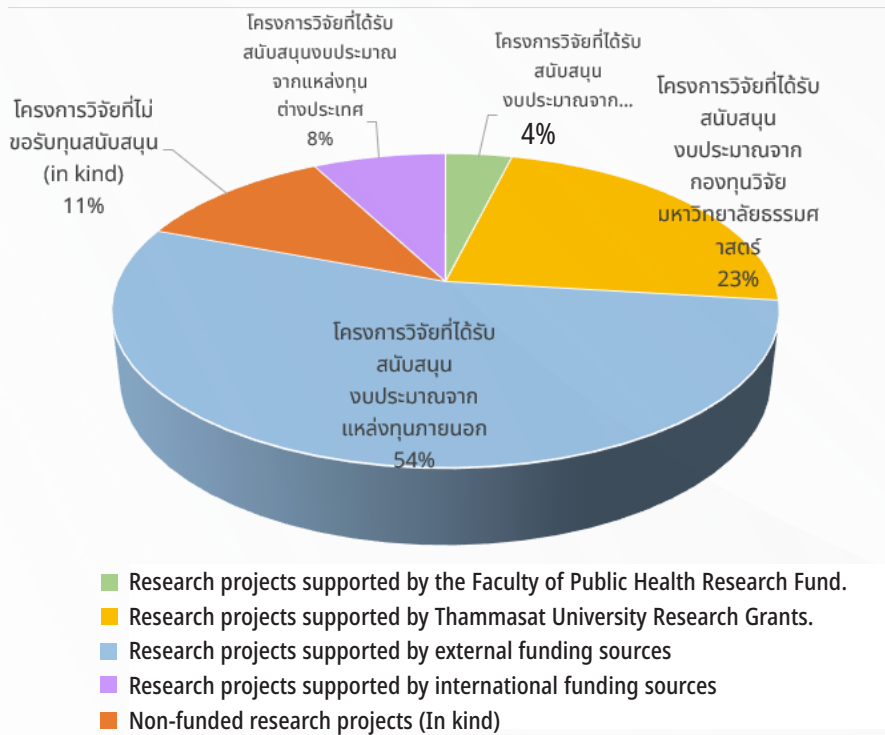

Diagram 1: The proportion of different types of academic service projects received from funding sources.

Number of published academic articles in national and international databases

Types of Publications	Number of Publications
National publication databases	
- TCI	22
International publication databases	
- SCOPUS	50
- International Scientific Indexing (ISI)	2
- Online publications	4
Total	78

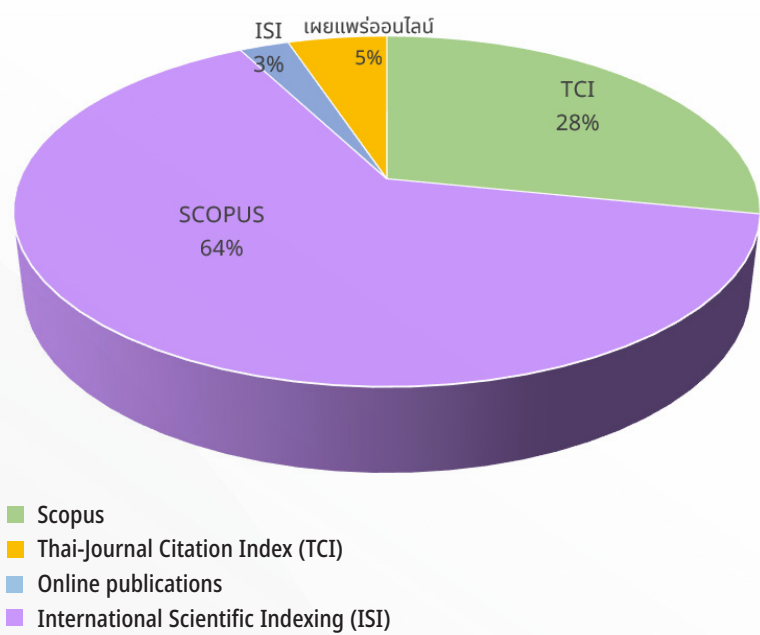

Diagram 2: The proportion of publications in national and international databases.

2. Performances of the Faculty of Public Health Research Fund in the Fiscal Year 2021

2.1 Research grants, general research (Invitation research), including 3 scholarships in the amount of 149,625 Baht.

No.	Name of Researchers	Projects
1	Dr. Twisuk Punpeng	SUSTAINABLE MANAGEMENT OF FACEMASK WASTE GENERATED FROM COVID-19 PANDEMIC IN BHUTAN Risk Assessment from Exposure to the Pesticide
2	Asst. Prof. Dr. Saowanee Norkaew	Emamectin Benzoate among Farmers: a Case Study of Agricultural Areas in Nikhom Phatthana Subdistrict, Bang Rakam District, Phitsanulok Province, Thailand
3	Asst. Prof. Dr. Pirom Noisumdaeng	Carbapenemase producing <i>Escherichia coli</i> and <i>Klebsiella pneumoniae</i> in healthcare workers, patients and environment in the Center of Care and Protection of Orphan Children, Vietnam

2.2 Research grants for transdisciplinary research, including 1 scholarship in the amount of 150,000 Baht.

No.	Name of Researchers	Projects
1	Asst. Prof. Dr. Nontiya Homkham	Estimating HIV Infection Rates and Comparing HIV Detection Rates among Transgender Women Between Services Provided by On-site Service Centers and Mobile Service Centers with Online Services in Chiang Mai Province, Thailand

2.3 International Publication Award for Research article published in International Journal: Q1 (Additionally from Thammasat University Research Grants), including 1 scholarship in the amount of 17,557.76 Baht.

No.	Name of Researchers	Projects
1	Dr. Andrew Lee Corwin	The Impact of Preparedness in Defying COVID-19 Pandemic Expectations in the Lower Mekong Region: A Case Study

2.4 Grants for Student Employment in Research and Academic Services

2.4.1 Bachelor's degree, the financial support amount is 10,000 baht/teacher/year, including 5 scholarships. The total budget is 10,000 Baht.

No.	Name of Researchers	Name of Students	Assignments
1	Asst. Prof. Ronnapoom Samakkeekarom	Miss Sukruthai Sunthornwat	- Process research - Check and format research reports and academic articles - Coordinate with editors of academic journals
2	Asst. Prof. Dr. Kanjana Changkaew	Miss Chonticha Pukit Miss Buachompoo Sai-iam Miss Suchawadee Mashu Miss Phinyada Simcharoen	- Collect data - Analyze study results - Prepare a manuscript
3	Dr. Kitrawee Jiraratsatit	Miss Thanatcha Narunatwattana	- Compile information - Write academic articles
4	Asst. Prof. Dr. Pradabduang Kiattisaksiri	Miss Panbodi Sonram Miss Sirinya Sengyim	- Prepare the solution - Sampling sample preparation - Prepare equipment - Clean the equipment
5	Asst. Prof. Ronnapoom Samakkeekarom	Mr. Natthanan Suporn	- Process research - Check and format research reports and academic articles - Coordinate with editors of academic journals

2.5 Grants for Paper Review and Approval Process in English, including 5 scholarships. The total budget is 19,961 Baht.

No.	Name of Researchers	Projects
1	Asst. Prof. Dr. Pensri Watchalayan	Cancer Risk Assessment around Municipal Solid Waste Incinerators
2	Asst. Prof. Dr. Saowanee Norkaew	Estimating Occupational Exposure to VOCs, SVOCs, Particles and Participant Survey Reported Symptoms in Central Thailand Rice Farmers Using Multiple Sampling Techniques
3	Asst. Prof. Dr. Yanasinee Suma	Health risks associated with pesticide exposure and pesticides handling practices among farmers in Thailand
4	Asst. Prof. Dr. Yanasinee Suma	Adsorption of Methylene Blue by Low-Cost Biochar Derived from Elephant Dung
5	Assoc. Prof. Dr. Niphattra Haritavorn	Just Hemorrhoids, Not Cancer”: Perceptions of Colorectal Cancer Among Thai Colorectal Cancer Patients

2.6 Grants for Major Research Projects at the National or International Level, including 1 scholarship. The total budget is 30,000 Baht.

No.	Name of Researchers	Projects
1	Asst. Prof. Dr. Li Liang	Transdisciplinary Higher Education for Global Wellbeing

2.7 Outstanding Research Grants for Faculty Members, including 5 scholarships. The total budget is 25,000 Baht.

No.	Name of Researchers	Projects
1	Assoc. Prof. Dr. Sasitorn Taptagaporn	The highest number of published research results in international databases in 2021
2	Asst. Prof. Dr. Pantitcha Thanatrakonsri	The highest number of research projects collaborated with various sectors, both inside and outside Thammasat University, including national and international organizations.

2.7 Outstanding Research Grants for Faculty Members, including 5 scholarships. The total budget is 25,000 Baht. (Cont.)

No.	Name of Researchers	Projects
3	Assoc.Prof.Roy William Batterham	The highest number of research works that have been cited (citation) is awarded in the category of the highest number of research works, counting published works in the past 5 years from 2017 to 2021 that are referenced within the year 2021.
4	Assoc. Prof. Dr. Sirima Mongkolsomlit	Research works were highly used in many professions.
5	Asst. Prof. Dr. Teeraphun Kaewdok	The highest number of research works submitted for patents or petty patents.

3. Research Units

The research unit receives budget support from the Thammasat University Research Fund in One Health and Ecohealth, led by Asst. Prof. Adisak Bhumiratana as the head of the research unit together with 3 faculty members, including Asst. Prof. Dr. Nittaya Pasukphun, Asst. Prof. Dr. Kasama Pooseesod, and Asst. Prof. Dr. Sayambhu Saita, who had a mission to create and develop knowledge about health issues by applying the One Health and Ecological Health approaches as a basis to bring interdisciplinary research into practice and supporting, promoting, and disseminating knowledge about health issues to scientific communities both at the national and international level.

1. Asst. Prof. Dr.Li Liang	Consumer attitudes toward e-waste reuse and recycling in selected villages in Thailand, Vietnam, Japan, and China
2. Asst. Prof. Dr. Yanasinee Suma	Adsorption of Methylene Blue by Low-Cost Biochar Derived from Elephant Dung
3. Asst. Prof. Dr. Nantika Soonthornchaikul	Assessing inorganic arsenic in rice and its health risk to consumers in Ho Chi Minh City, Vietnam
4. Asst. Prof. Dr.Li Liang	Perceptions of residents toward e-waste reuse and recycling in selected villages in Thailand, Vietnam, Japan, and China
5. Asst. Prof. Dr. Supang Wattanasoei	Determinants of Patients' Satisfaction Level Reporting Chronic Kidney Disease Clinics Established in Thailand

5. Personnel Developments for Research Excellence

5.1 The Seminar on “Human Research Ethics according to SOPs Standards”

was held on June 7, 2022, from 08:30 a.m. to 04:40 p.m. via an online meeting lectured by the Human Research Ethics Committee of Thammasat University (Faculty of Medicine).

6. Development Plans for Excellence in Academic Research

1. Support the establishment of a center of excellence in integrated environmental research units for health and safety. Integrated Environment, Health, and Safety Research Unit (IEHS)
2. Contribute to the publication of research findings in international databases such as Scopus and ISI Web of Science.
3. Launch academic works, textbooks, books, and media for beneficial use on a national and international level.
4. Mobilize research work through national and international policies.
5. Encourage the submission of a patent or petty patent.
6. Increase the number of collaborative institutions for research and innovation funding.
7. Increase proactive implementation for research funding agencies by
 - 7.1 Encouraging and supporting professors to request research grants from outside the university.
 - 7.2 Creating a connection between instructors and suitable research funding sources.
 - 7.3 Conducting a faculty database of research funding sources to disseminate to faculty members.

Academic Services

The Faculty of Public Health at Thammasat University has missions to provide academic services that meet international standards by implementing a policy to promote academic services for society, both the government and the business sectors, within and outside corporation networks according to versatile and particular expertise, such as a health promotion for behavioral change, which is the cause of health problems, occupational health, and safety, including the working environment of both the public and private sectors in order to operate in accordance with laws, ministerial regulations, or standards related to setting standards in administration and safety management, such as providing services for measuring heat, light, chemicals, and indoor air quality (IAQ) in the working environment,

providing advice in various areas, and providing environmental health services, Laboratory analysis services are provided, such as analyzing the quality of drinking water, good water, tap water, waste water, and food quality to meet certification standards as required by the agency in the industrial factory group, companies outside Thammasat University, and industrial factories surrounding Thammasat University, including providing academic services in departments within Thammasat University. and also promotes model community operations. Combine with network partners to create a healthy community to serve as a model for other communities and to integrate it into teaching or research. In addition, the Faculty of Public Health at Thammasat University Therefore, this course has been developed for executives of the Mini MBA: Sustainability Innovation in Safety, Health, Environment, and Energy Management, 2nd generation (Organization Executives Mini MBA: Innovative Sustainability in Safety, Health, Environment, and Energy Management (Mini MBA: SHE&En) who have understood the perspective of SHE&En, and those responsible for SHE&En have understood the perspective of business management. The trainees will receive knowledge of modern

tools and can actually use them in organizational management, emphasizing learning through activities and case studies. There is a study tour of successful organizations. It is outstanding within the country and has created a network of executives and business operators who are leaders and committed to organizational development to create sustainable innovations in safety, health, environment, and energy management.

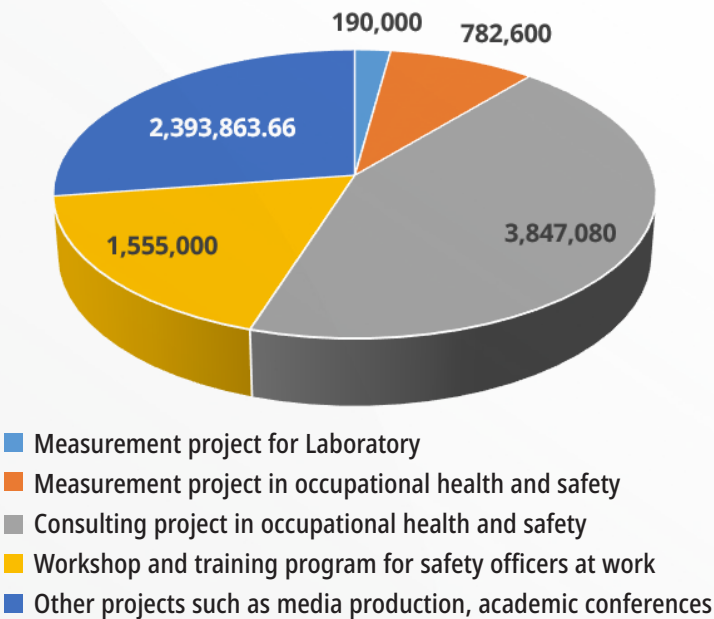

Faculty of Public Health, Thammasat University There is also an academic service center for health, safety, and occupational health, and Environmental Health (Business unit) is one of the goals of the Faculty of Public Health's operations. Thammasat University By the drive of the Committee for the Promotion of Academic Services to Society and the Academic Service Center for Health, Safety, and Occupational Health and Environmental Health (Business Unit) to focus on academic services to society in accordance with the goals and lead to academic services for the health and well-being of the community According to the mission of the Faculty of Public Health, the operating results for the fiscal year 2022 are as follows:

1. Academic Services for Society on Occupational Health, Safety and Environmental Health (Business unit)

in the fiscal year 2022, including 53 projects with the budget amount 5,395,280 Baht.

Types of Projects	Number (Project)	Total
Measurement project for Laboratory	10	190,000
Measurement project in occupational health and safety	20	782,600
Consulting project in occupational health and safety	4	3,847,080
Workshop and training program for safety officers at work	6	1,555,000
Other projects such as media production, academic conferences	13	2,393,863.66

The proportion of different types of academic service projects received from funding sources.

2. Development Plans for Excellence in Academic Services for Society

1. Support the creation of a concrete and sustainable community model of health and well-being.
2. Strengthen the cooperation with the network in the Occupational Health, Safety and Environmental Health (Business Unit), Faculty of Public Health, Thammasat University.
3. Promote corporate expansion of academic services into the target business in order to increase income for the Faculty of Public Health, Thammasat University.
4. Develop the ISO/IEC 17025 standard system of the laboratory.
5. Encourage faculty to provide social service in the area or in the issue of transferring knowledge and technology related to prevention, including solving health and public health problems, and support the creation of a concrete and sustainable community model of health and well-being.
6. Support faculty members to provide academic services for society with knowledge transfer and technology related to prevention and solution on public health problems.

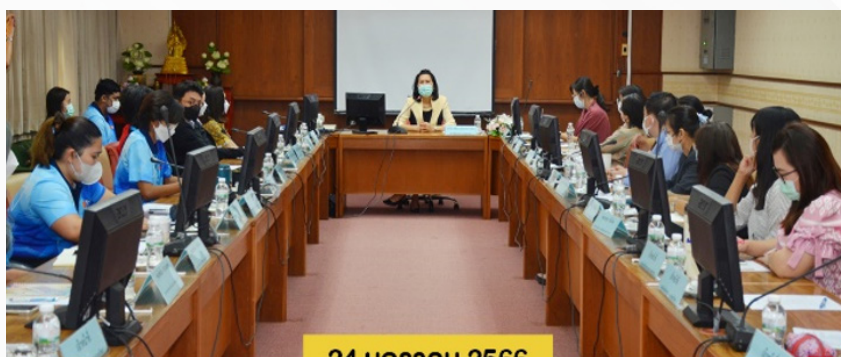

Strategy, Quality Assurance and Finance

1. Internal Quality Assessment

The Faculty of Public Health began using the Educational Quality Criteria for Execution of Excellence (EdPEX) as a framework for improving the quality of organizational management in academic year 2015, and in the academic year 2021, the Faculty of Public Health participated in the project to develop the quality of education to excellence: EdPEX200, Class 9, 2021. The faculty has a plan to move towards becoming an agency that receives accreditation at a higher level, and there is a plan to review and develop operational guidelines for educational quality assurance and strategy according to the advice of experts and those with knowledge and ability to apply them in accordance with the strategic plan of the faculty and the strategic plan of Thammasat University, Issue 13 (2022–2027) continues to develop the organization towards excellence and sustainability.

In the academic year 2022, there is a commitment to drive the faculty's operations to continuously meet the educational quality criteria for operational excellence (EdPEX). Therefore, there is an executive team, program chairs, faculty, supervisors, and staff from the Faculty of Sociology and Anthropology at Thammasat University and the Faculty of Medical Sciences at the University of Phayao interested in a study visit and exchange of knowledge, including sharing inspiration in leading the organization to meet quality education for joint excellence, focusing on the issue of driving methods, inspiring, pushing, improving, and developing the operations of the Faculty of Public Health. According to the guidelines for educational quality criteria for excellent implementation (EdPEX), that made the Faculty of Public Health successful in leading the organization to become an agency that passed the 200-point assessment in participating in the project to develop educational quality towards excellence: EdPEX200, 9th edition, 2021, held by the Office of the Permanent Secretary, Ministry of Higher Education, Science, Research, and Innovation (Higher Education, Science, Research, and Innovation).

ประกาศคณะกรรมการสุขภาพศาสตร์ มหาวิทยาลัยธรรมศาสตร์ เรื่อง นโยบายความปลอดภัย อาชีวอนามัย อนามัยสิ่งแวดล้อม และอนุรักษ์พลังงาน

ตามมาตรา ๓ วรศ ๒ แห่งพระราชบัญญัติความปลอดภัย อาชีวอนามัยและสภาพแวดล้อมในการทำงาน พ.ศ. ๒๕๕๔ กำหนดให้ราชการส่วนกลางราชการส่วนภูมิภาคราชการส่วนท้องถิ่นและกิจการอื่นตามที่กำหนดในกฎกระทรวงจัดให้มีมาตรฐานในการบริหารและการจัดการด้านความปลอดภัย อาชีวอนามัย และสภาพแวดล้อมในการทำงานในหน่วยงานของตนไม่ต่ำกว่ามาตรฐานความปลอดภัย อาชีวอนามัย และสภาพแวดล้อมในการทำงาน นั้น

ในการนี้เพื่อให้สอดคล้องกับพระราชบัญญัติความปลอดภัย อาชีวอนามัย และสภาพแวดล้อมในการทำงาน พ.ศ. ๒๕๕๔ พระราชบัญญัติการส่งเสริมการอนุรักษ์พลังงาน พ.ศ. ๒๕๓๕ และนโยบายด้านความปลอดภัย อาชีวอนามัย และสภาพแวดล้อมในการทำงาน และนโยบายอนุรักษ์พลังงาน ของมหาวิทยาลัยธรรมศาสตร์ คณะสาธารณสุขศาสตร์ มหาวิทยาลัยธรรมศาสตร์ ได้ตระหนักถึงการจัดการด้านความปลอดภัยอาชีวอนามัยอนามัยสิ่งแวดล้อมและอนุรักษ์พลังงานจึงมีความมุ่งมั่นที่จะบริหารจัดการโดยมุ่งเน้นให้บุคลากร นักศึกษา และผู้ที่เกี่ยวข้องกับคณะสาธารณสุขศาสตร์ มีส่วนร่วมในการพัฒนาอย่างต่อเนื่องและยั่งยืน คณะสาธารณสุขศาสตร์ จึงประกาศนโยบายความปลอดภัย อาชีวอนามัย อนามัยสิ่งแวดล้อม และอนุรักษ์พลังงาน ดังนี้

๑. คณะสาธารณสุขศาสตร์มีความมุ่งมั่นในการจัดการระบบการบริหารจัดการด้านความปลอดภัยอาชีวอนามัยอนามัยสิ่งแวดล้อม และอนุรักษ์พลังงาน ให้สอดคล้องกับกฎหมาย ระเบียบ มาตรฐานของรัฐ และมาตรฐานสากลที่เกี่ยวข้องเพื่อส่งเสริมสุขภาพ ความปลอดภัย อาชีวอนามัย อนามัยสิ่งแวดล้อม และอนุรักษ์พลังงานของบุคลากร นักศึกษา และผู้ที่เกี่ยวข้องกับคณะสาธารณสุขศาสตร์
๒. คณะสาธารณสุขศาสตร์มีความมุ่งมั่นป้องกันความสูญเสีย การบาดเจ็บ/เจ็บป่วยจากการทำงาน ให้ความสำคัญต่อการสร้างเสริมสุขภาพและอาชีวอนามัยของบุคลากร ชุมชน และผู้มีส่วนได้ส่วนเสียอื่นๆ โดยตระหนักถึงภัยคุกคามตามปัจจัยเสี่ยง กำหนดมาตรฐานควบคุมและป้องกันปัจจัยเสี่ยงตามหลักสิทธิมนุษยชน
๓. คณะสาธารณสุขศาสตร์ส่งเสริมการอนุรักษ์สิ่งแวดล้อม ให้ปราศจากของเสียและมลพิษโดยการกำหนดมาตรการต่างๆ ที่ป้องกันมลภาวะอย่างต่อเนื่อง
๔. คณะสาธารณสุขศาสตร์มุ่งมั่นในการพัฒนาระบบป้องกัน ชักซ้อมระงับเหตุฉุกเฉินและอุบัติเหตุ ระบบการบริหารงานในภาวะฉุกเฉินให้มีความต่อเนื่องในการปฏิบัติงานเพื่อให้บุคลากร นักศึกษา และผู้ที่เกี่ยวข้องกับคณะสาธารณสุขศาสตร์ มีความมั่นใจในความปลอดภัยของชีวิตและทรัพย์สิน
๕. คณะสาธารณสุขศาสตร์มีภารกิจในการสื่อสารและประชาสัมพันธ์ เพื่อให้บุคลากร นักศึกษา และผู้ที่เกี่ยวข้องกับคณะสาธารณสุขศาสตร์ทราบถึงข้อกำหนดตามนโยบายความปลอดภัยอาชีวอนามัยอนามัยสิ่งแวดล้อมและอนุรักษ์พลังงานของคณะสาธารณสุขศาสตร์
๖. คณะสาธารณสุขศาสตร์จะดำเนินการปรับปรุงประสิทธิภาพการใช้พลังงานในอาคารต่าง ๆ ให้เหมาะสมกับลักษณะและปริมาณพลังงานที่ใช้ในคณะสาธารณสุขศาสตร์อย่างต่อเนื่อง
๗. คณะสาธารณสุขศาสตร์ถือว่าการบริหารจัดการและดำเนินการด้านความปลอดภัย อาชีวอนามัยอนามัยสิ่งแวดล้อม และอนุรักษ์พลังงาน เป็นหน้าที่รับผิดชอบของบุคลากร นักศึกษา และผู้ที่เกี่ยวข้องกับคณะสาธารณสุขศาสตร์ทุกคน

ประกาศ ณ วันที่ ๑๕ มิถุนายน พ.ศ. ๒๕๖๕

(รองศาสตราจารย์ ดร.สสิธร เทวประดอมส)
คณบดีคณะสาธารณสุขศาสตร์
